

Product Data Sheet

Product Name: Odesivimab

Cat. No.: GC72434

Chemical Properties

Cas. No. 2135632-30-1

Formula

M.Wt

Solubility

Storage

General tips For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.

Structure

Odesivimab

Background

Odesivimab is a human monoclonal antibody, targeting Ebola virus glycoprotein with a KD value of 7.74 nM for recombinant histidine-tagged Makona strain Ebola virus glycoprotein ectodomain protein. Odesivimab can be used in research of Ebola virus infection.

Odesivimab (REGN-3471) neutralizes pseudovirus particles in vitro. Odesivimab with Atoltivimab and

Caution: Product has not been fully validated for medical applications. For research use only.
