

Product Data Sheet

Product Name: ABC transporter modulator-2

Cat. No.: GC81765

Chemical Properties

Cas. No. 3093663-15-8

Formula $C_{19}H_{15}F_3N_6O_3S$ M.Wt 464.42

Solubility DMSO: 100 mg/mL (215.32 mM; Need ultrasonic) Storage Store at 4°C, sealed storage, away from moisture

General tips For obtaining a higher solubility, please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT, or blue ice upon request.

Structure

Background

ABC transporter modulator-2 (Compound I-200) is a ABC transporter expression modulator. ABC transporter modulator-2 upregulates the expression of wild-type ABCC6 with an EC 50 of <1 μM. ABC transporter modulator-2 upregulates the expression of wild-type ABCB4 with an EC 50 of <1 μM. ABC transporter modulator-2 upregulates the expression of wild-type ABCD2 with an EC 50 of <1 μM. ABC transporter modulator-2 upregulates the expression of the ABCA4 P1380L mutant with an EC 50 of <1 μM. ABC transporter modulator-2 can be used in the research of diseases associated with ABC transporter dysfunction [1].

Caution: Product has not been fully validated for medical applications. For research use only.

Address: 10292 Central Ave. #205, Montclair, CA, USA

Product Data Sheet

In Vitro, ABC transporter modulator-2 upregulates the expression of ABCC6 WT with an EC50 of $<1 \mu\text{M}$ ^[1]. ABC transporter modulator-2 upregulates the expression of ABCB4 WT with an EC50 of $<1 \mu\text{M}$ ^[1]. ABC transporter modulator-2 increases the expression level of the ABCA4P1380L mutant, with an EC50 of $<1 \mu\text{M}$ ^[1]. ABC transporter modulator-2 upregulates the expression of ABCD2 WT with an EC50 of $<1 \mu\text{M}$ ^[1].
