

Product Data Sheet

Product Name: F3288-0031

Cat. No.: GC79493

Chemical Properties

Cas. No. 926493-93-8

Formula $C_{24}H_{32}N_2O_3$

M.Wt 396.52

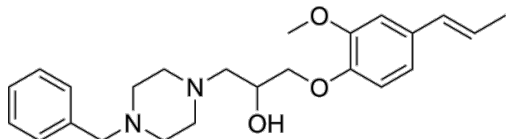

Solubility

Storage Store at -20°C

General tips For obtaining a higher solubility, please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT, or blue ice upon request.

Structure

Background

F3288-0031 is a brain-penetrant norepinephrine transporter (NET) allosteric inhibitor with inhibitory rates of 73.5% at 20 μ M. F3288-0031 binds within the inner vestibule of NET, stabilizing the inward-open state and has a preferential NET / SERT inhibition with $pIC_{50} = 5.9$. F3288-0031 shows no detectable off-target functional activity in vitro. F3288-0031 demonstrates robust antidepressant-like efficacy in vivo without confounding locomotor effects, F3288-0031 can be used for depressive disorder and related neuropsychiatric conditions [1].

In Vivo, F3288-0031 (3-50 mg/kg, i.p., once) has an antidepressant-like activity without confounding

Caution: Product has not been fully validated for medical applications. For research use only.
