

## Product Data Sheet

Product Name: Desamino lenalidomide-cyano

Cat. No.: GC80968

### Chemical Properties

Cas. No. 2639386-82-4

Formula  $C_{14}H_{11}N_3O_3$  M.Wt 269.26

Solubility DMSO: 6.67 mg/mL (24.77 mM); ultrasonic and warming and heat to 60°C) Storage Store at room temperature

General tips For obtaining a higher solubility, please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution: ship with blue ice All other available size: ship with RT, or blue ice upon request.

Structure

### Background

Desamino lenalidomide-cyano is an E3 ubiquitin ligase cereblon (CRBN) ligand used to recruit the cereblon protein. Desamino lenalidomide-cyano can be linked to a target protein ligand via a linker to form a PROTAC.

In Vitro, PROTACs contain two different ligands connected by a linker; one is a ligand for an E3 ubiquitin ligase and the other is for the target protein. PROTACs exploit the intracellular ubiquitin-
