

Product Data Sheet

Product Name: Picamilon

Cat. No.: GC46206

Chemical Properties

Cas. No. 34562-97-5

SMILES O=C(NCCCC(O)=O)C1=CN=CC=C1

Formula C₁₀H₁₂N₂O₃ M.Wt 208.2

Solubility DMSO: 1 mg/ml, DMSO:PBS (pH 7.2) (1:9): 0.10 mg/ml Storage Store at -20°C

General tips For obtaining a higher solubility, please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution: ship with blue ice All other available size: ship with RT, or blue ice upon request.

Structure

Background

Picamilon is a derivative of γ-aminobutyric acid (GABA).¹ It increases parietal cortical blood flow in rats and rabbits when administered at doses of 50 mg/kg, i.p. and 10 mg/kg, i.v., respectively.² Picamilon (10 mg/kg) increases latency to enter the dark compartment in the passive avoidance conditioned reflex test in rats compared with control animals, indicating nootropic effects.¹
