

Product Name: GLP-1 receptor agonist 14  
Cat. No.: GC73720

Cas. No. 3011682-51-9

Formula  $\text{C}_{48}\text{H}_{46}\text{F}_2\text{N}_{10}\text{O}_5$

M.Wt 880.94

## Solubility

Storage -20°C

|              |                                                                                                                                                                                 |
|--------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General tips | For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months. |
