

Product Data Sheet

Product Name: UCD38B hydrochloride

Cat. No.: GC72878

Chemical Properties

Cas. No. 1115177-19-9

Formula $C_{15}H_{16}ClN_7O_3 \cdot xHCl$ M.Wt

Solubility DMSO : 100 mg/mL (Need ultrasonic) Storage -20°C, sealed storage, away from moisture

General tips For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.

Structure

Background

UCD38B drochloride is a cell permeant, competitive enzymatic uPA inhibitor with an IC₅₀ value of 7 μM. UCD38B drochloride targets intracellular uPA causing mistrafficking of uPA into perinuclear mitochondria, reducing the mitochondrial membrane potential, and followed by the release of apoptotic inducible factor (AIF). UCD38B drochloride induces apoptosis.

UCD38B drochloride (10-250 μM; 1h) has cell permeant in U87MG cells[1].UCD38B drochloride (10-250 μM; 1h) inhibits cell growth with an IC₅₀ value of 100 μM[1].

Caution: Product has not been fully validated for medical applications. For research use only.
