

Product Data Sheet

Product Name: D-Ribonic acid ammonium

Cat. No.: GC79713

Chemical Properties

Cas. No. 90801-23-3

Formula $C_5H_{13}NO_6$

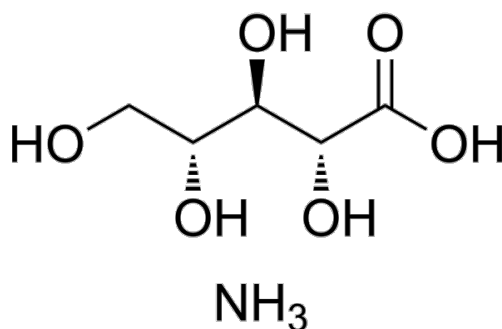

M.Wt 183.16

Solubility Storage Store at 4°C, away from moisture

General tips For obtaining a higher solubility, please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT, or blue ice upon request.

Structure

Background

D-Ribonic acid ammonium is a metabolite of D-Ribose. Ribonic acid ammonium is associated with genetic variations in ENOSF1 and NUBPL. Ribonic acid ammonium may participate in the mitochondrial energy production process [1].

In Vitro, Ribonic acid ammonium is associated with genetic variations in ENOSF1 and NUBPL, and may be involved in mitochondrial energy production processes [1].
