

Product Name: Nonaethylene glycol monododecyl ether
Cat. No.: GC38697

Cas. No. 3055-99-0

SMILES CCCCCCCCCCCCOCCOCCOCCOCCOCCOCCOCCOCCOCCO

Formula	C ₃₀ H ₆₂ O ₁₀	M.Wt	582.81
---------	---	------	--------

Solubility	DMSO: 250 mg/mL (428.96 mM); Ethanol: 100 mg/mL (171.58 mM)	Storage	Store at -20°C
------------	--	---------	----------------

General tips	For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.
--------------	---

Shipping Condition	Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.
--------------------	--

Structure

Nonaethylene glycol monododecyl ether (Nonaoxyethylene monododecyl ether) is a nonionic surfactant and polyethylene glycol (PEG) detergent that can be used to form initial coalesced O/W emulsion droplets, as well as for protein separation and purification[1][2][3].

Examination of a series of non-ionic PEG detergents with several long-chain E-PDSs from different organisms reveals that in vitro incubations with Nonaethylene glycol monododecyl ether typically

Caution: Product has not been fully validated for medical applications. For research use only.
