

Product Data Sheet

Product Name: LY456066

Cat. No.: GC72895

Chemical Properties

Cas. No. 338738-66-2

Formula $C_{19}H_{23}N_3OS$

M.Wt 341.47

Solubility

Storage -20°C, protect from light, stored under nitrogen

General tips For obtaining a higher solubility, please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request.

Structure

Background

LY456066 is a selective non-competitive metabotropic glutamate receptors (mGluR1) antagonist with an IC₅₀ value of 52.0 nM. LY456066 is effective in rodent models of anxiety and nociception. LY456066 reduces peripheral pain and the amount of licking and flinching following formalin injection, which is promising for research of analgesics for chronic pain.

Caution: Product has not been fully validated for medical applications. For research use only.
