

Product Data Sheet

Product Name: Ternidazole

Cat. No.: GC78906

Chemical Properties

Cas. No. 1077-93-6

Formula $C_7H_{11}N_3O_3$ M.Wt 185.18

Solubility DMSO: 100 mg/mL (540.02 mM; Need ultrasonic) Storage Store at room temperature

General tips For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.

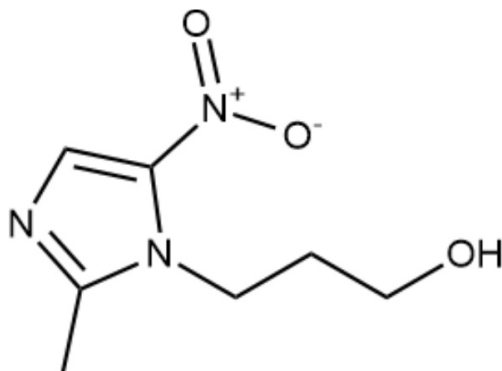

Caution: Product has not been fully validated for medical applications. For research use only.

Tel: (909) 407-4943 Fax: (626) 353-8530 E-mail: tech@glpbio.com

Address: 10292 Central Ave. #205, Montclair, CA, USA

Product Data Sheet

Structure

Background

Ternidazole is a nitroimidazole Antibiotic with anti-pathogenic microbial activity. Ternidazole kills and inhibits the visible growth of *Clostridium perfringens* type A in vitro. Ternidazole helps improve the therapeutic efficacy against bacterial vaginosis, candidal vaginitis and mixed vaginitis. Ternidazole effectively alleviates chronic alcoholism. Ternidazole can be used in research related to vaginitis, pathogenic microbial infections and chronic alcoholism [1] [2] [3].

In Vivo, Ternidazole (10 d, once daily) combined with Neomycin sulfate, Nystatin and Prednisolone improves clinical manifestations of mixed vulvovaginitis and reduces pathogen positive recurrence rate in vaginal infection related trials^[1].

In Vitro, Ternidazole (0.3-40 µg/mL; 17-18 h) exerts bacteriostatic and bactericidal activities against

Caution: Product has not been fully validated for medical applications. For research use only.
