

Product Data Sheet

Product Name: 3-Methyl-1H-pyrrole-2,5-dione

Cat. No.: GF29890

Chemical Properties

Cas. No. 1072-87-3

Formula $C_5H_5NO_2$

M.Wt 111.1

Solubility

Storage -20°C

General tips For obtaining a higher solubility, please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT, or blue ice upon request.

Structure

Background

Citraconimide is a 3-methylmaleimide derivative. Citraconimide has thiol affinity and can undergo highly regioselective addition with a variety of alkyl thiols. Citraconimide derivatives show growth

Caution: Product has not been fully validated for medical applications. For research use only.

Address: 10292 Central Ave. #205, Montclair, CA, USA

Product Data Sheet

inhibitory activity against HeLa cells. Citraconimide can be modified by N-substitution, halogenation and other reactions for use in bioactive molecule design and drug development research^[1].
