

Product Data Sheet

Product Name: 4-Methoxyestradiol-d 5

Cat. No.: GC81626

Chemical Properties

Cas. No.

Formula $C_{19}H_{21}D_5O_3$

M.Wt 307.44

Solubility

Storage Store at -20°C

General tips For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.

Structure

Background

4-Methoxyestradiol -d 5 is the deuterium labeled 4-Methoxyestradiol. 4-Methoxyestradiol is methoxyestradiol that induces oxidative DNA damage in human lung epithelial cells. 4-Methoxyestradiol also elevates ROS and SOD activities in H1355 cells [1].

In Vitro, Stable heavy isotopes of hydrogen, carbon, and other elements have been incorporated into drug molecules, largely as tracers for quantitation during the drug development process. Deuteration

Caution: Product has not been fully validated for medical applications. For research use only.
