

Product Data Sheet

Product Name: Quisovalimab

Cat. No.: GC72442

Chemical Properties

Cas. No. 2427667-03-4

Formula

M.Wt

Solubility

Storage

General tips For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.

Structure

Quisovalimab

Background

Quisovalimab (AVTX-002; AEVI 002; SAR 252067) is a human monoclonal antibody against LIGHT, a tumor necrosis factor (TNF)-related cytokine (TNFSF14) that plays an important role in acute respiratory distress syndrome (ARDS) and cytokine release syndrome (CRS) COVID-19.

Quisovalimab can be used in COVID-19 acute respiratory distress syndrome and other studies.

Caution: Product has not been fully validated for medical applications. For research use only.
