

Product Data Sheet

Product Name: BMS-986482

Cat. No.: GC81515

Chemical Properties

Cas. No. 3062993-48-7

Formula $C_{21}H_{19}FN_4O_4$ M.Wt 410.4

Solubility Storage Store at -20°C

General tips For obtaining a higher solubility, please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request.

Structure

Background

BMS-986482 is a CRBN-mediated IKZF1-4 (Ikaros family zinc finger 1-4) molecular glue degrader. BMS-986482's activity is driven by a non-traditional CELMoD core that selectively degrades the IKZF protein family. BMS-986482 can be used for the research of advanced solid tumors [1].

In Vivo, BMS-986482 induces robust tumor growth inhibition in syngeneic mouse models [1].
